KESHAV RATERIA

B. Tech Computer Science | VIT Vellore

Email: keshavrateria11@gmail.com • Phone: 9163445175 • GitHub: KeshavRateria

PROFILE

First-year Computer Science undergraduate developing foundations in programming, databases and embedded systems. Interested in software development, problem-solving and building practical applications.

TECHNICAL TOOLKIT

Programming

Python • C++ (learning) • HTML • CSS

Database

MySQL

Tools & platforms

VS Code • Git/GitHub (learning) • Wokwi

EDUCATION

VIT Vellore

B. Tech, Computer Science and Engineering
2026 – Present

Class X | 94.8%

Class XII | 90.4%

JEE Mains | 97.2%ile

AREAS OF INTEREST

Backend development
Data structures & algorithms
Embedded systems
AI / machine learning

SELECTED PROJECTS

School Management System

Python • MySQL | Academic project

- Developed a school management application using Python and MySQL to organize school-related records and workflows.
- Worked with database-backed functionality for administrative and academic information.

ESP32-Based Smart Immersion Cooling System

ESP32 • C++/Arduino • Wokwi | Multidisciplinary project — ongoing

- Developing monitoring and safety logic for a proposed dielectric-fluid PC immersion cooling setup.
- Simulated temperature, liquid-level and flow conditions in Wokwi, including buzzer alerts for unsafe states.
- Collaborating on a multidisciplinary concept involving cooling control and solar-powered operation.

CURRENT LEARNING

- Building programming fundamentals in C++ and exploring data structures and algorithms.
- Learning Git/GitHub workflows and practical microcontroller programming through project work.

OBJECTIVE

Seeking opportunities to contribute to beginner-friendly software projects, technical teams and internships while strengthening programming and problem-solving skills.
